

**Co-funded by
the European Union**

Grant Agreement: SMP-COSME-2022-SEE-01- 101127813

LIST OF VET PROVIDERS AND ADVISORY SERVICES PROVIDERS

(version updated on 15th of November 2024)

Funded by the European Union. Views and opinions expressed are however those of the author(s) only and do not necessarily reflect those of the European Union or the European Commission. Neither the European Union nor the European Commission can be held responsible for them.

GreenBoost4WISEs Project and the aim of the list

GreenBoost4WISEs project aims at making the business and processes of Work Integration Social Enterprises (WISEs) and Social Economy Enterprises (SEEs) more sustainable and to raise awareness on the benefits of greener practices through capacity building, knowledge transfer and transnational cooperation.

GREENBOOST4WISEs project will provide financial support to European WISE/SEEs for the implementation of:

- Upskill and training towards staff and management of WISEs to green their operations;
- Encourage the uptake and adoption of sustainable measures and innovative solutions.

For the success of the project, it is crucial to engage a competent network of VET providers and Advisory Services Providers able to deliver courses and/or Advisory to support the green growth of WISEs.

The aim of the list is the creation of a database including VET providers and Advisory Services Providers with experience in green training initiatives and/or courses and/or applications and/or experience supporting WISEs and SEEs in their green transformation process.

The Database will be used by the WISEs and SEEs, participating in the GreenBoost4WISEs project to identify the most appropriate provider/s to support their upskilling process via financial support awarded to them by the project from October 2024 and it will act as a **virtual Map of VET and Advisory Providers** open to increasing networking and collaboration opportunities with WISEs and SEEs.

The Database will remain open until March 2025, training courses and/or advisory services can be carried out until the deadline of May 2025.

To take part in the list of VET and Advisory services Providers more info are available at the [LINK](#)

Journey BMC Partners Ltd - Advisory Services Provider (Ireland)

Official website (if available)	www.journey.partners
Country	Ireland
Contact person	Brian Marrinan
e-mail address	Brian@journey.partners
Area of availability for in person services	Ireland
Language	English
Curriculum & Training portfolio	Training portfolio ; Curriculum
Brief description of the experiences and expertises	With his background in Career Development at the UCD Michael Smurfit Graduate Business School, Brian deeply understands the value and challenges of WISE organizations. He built green programmes within the school related to the area. He has also been on the board of several SSE organizations, including currently acting as the Chair of MyMind, the mental health social enterprise, and has led the introduction of electric vehicles and mobile counseling. As Managing Partner at Journey Partners, Brian has led numerous sustainability and innovation educational programs, such as for the HSE and Donegal SCALE-X. His role as a Green for Business Consultant further highlights his commitment to sustainability, as he has worked with small and medium-sized enterprises to develop cost-effective, environmentally-friendly solutions.
Info on supporting WISEs and SEEs	A consultant can assist implementing a multifaceted approach. Firstly, we conduct comprehensive sustainability audits to identify current practices and pinpoint areas for improvement. We can help organizations integrate eco-friendly practices into their operations, such as adopting renewable energy sources, reducing waste, and improving resource efficiency. Additionally, the consultant can provide training and capacity-building workshops to educate employees and stakeholders about sustainable practices and their long-term benefits. We can also assist in pointing out potential funding avenues and grants. Furthermore, implementing robust monitoring and evaluation systems will help WISEs and SEEs track their progress and continuously improve their sustainability efforts.
Subjects and areas of expertise	Financial tools for the green transition of WISE and SEE, Access to technology and digitalisation for WISE and SEE addressed to the sustainability aspects, Organizational sustainability (Improvement and greening of internal processes), Development of a greening strategy or action plan, Branding and green labeling, Communication and green marketing, Circular economy, Waste and resources (food, waste, energy,...) management, Green office/smart technology, Green mobility, E-commerce, Clean energy - energy saving, Cleaning Services, Green Maintenance and Gardening, Sustainability in the agriculture and agri-food sectors, Crafts and Creative Recycling, Sustainable Tourism and Environmental Management
Materials available	Video recordings of the lectures/activities, Mini video summaries, Informational materials, Customized materials
Certification	Declaration of attendance

Learning modality	in-person, online, mixed mode (asynchronous and in-presence modes)

Brief description of the experiences and expertises	Il tema della sostenibilità ambientale è una delle grandi sfide del nostro millennio. Grazie a scelte di responsabilità sociale d'impresa sempre più aziende e organizzazioni possono contribuire alla riduzione del proprio impatto ambientale. Rete CAUTO è al fianco dei clienti come partner tecnico in grado di innescare e guidare il processo di cambiamento verso una nuova "transizione ecologica". Questo processo che è in primo luogo fonte di un cambiamento culturale, si tramuta in nuove soluzioni di economia circolare su misura per il proprio ciclo «produzione-consumo-smaltimento». A partire dalla tipologia di servizi o prodotti che vengono offerti all'esterno, i nostri esperti forniscono un'analisi dell'impatto ambientale individuando per ciascuna realtà degli indicatori specifici.
Info on supporting WISEs and SEEs	Possiamo erogare servizi in materia tecnico-ambientale. In particolare il trattamento e smaltimento corretto dei rifiuti necessita di adempimenti periodici a norma di legge e di aggiornamenti continui. Attraverso il nostro ufficio di consulenze tecnico-ambientali affianchiamo i nostri clienti, occupandoci direttamente dell'intera gestione documentale. Il know how tecnico-gestionale che CAUTO può fornire è il frutto della capacità tecnica maturata in quasi 30 anni di attività. Supportiamo gli enti gestori di centri di raccolta e ci rivolgiamo alle aziende che necessitano di trattare internamente i propri rifiuti o smaltirli e trasportarli affidandoli in conto terzi. Il nostro iter prevede una prima fase di analisi con l'identificazione di tutti gli obblighi e i successivi adempimenti necessari. Affianchiamo in maniera continuativa i clienti attraverso specifici percorsi formativi e possiamo offrire un sistema digitalizzato di aggiornamenti relativi alle normative europee, nazionali e regionali sui temi di specifico interesse.

Brief description of the experiences and expertises	Siamo un ente di formazione, consulenza e progettazione promosso da Confcooperative Brescia. Nato nel 2006, Consorzio Koinon da oltre 15 anni si impegna a fornire risorse e programmi per la crescita, lo sviluppo e la valorizzazione dell'impegno di chi lavora nelle imprese cooperative e del terzo settore. L'aggiornamento delle competenze degli occupati è essenziale affinché le imprese (non solo cooperative) si adattino alle trasformazioni socio-economiche, organizzative e tecnologiche, traendone tutti i possibili vantaggi. Le innovazioni di processo e di prodotto non possono aver luogo senza profili professionali capaci di interagire con le nuove tecnologie e le innovazioni organizzative conseguenti. In questo contesto, la capacità delle imprese di valutare lo stato delle competenze di cui dispongono e il loro fabbisogno di aggiornamento, e quindi di formazione, possono rivelarsi determinanti. Proprio per questo motivo promuoviamo iniziative formative, consulenziali e di ricerca in favore di soci, management, lavoratori e le lavoratrici delle imprese e degli enti aderenti a Confcooperative Brescia. Il Consorzio Koinon è ente accreditato presso CROAS (Consiglio Regionale Ordine assistenti sociali) ed eroga percorsi in ambito socio-sanitario rivolti in particolare all'aggiornamento degli assistenti sociali. In collaborazione con alcuni enti del sistema di Confcooperative, Koinon progetta percorsi formativi con il riconoscimento di crediti ECM.
Info on supporting WISEs and SEEs	Per Koinon la formazione non è soltanto un'attività d'impresa ma è innanzitutto un modo per favorire lo sviluppo del fenomeno cooperativo e, più in generale, la crescita civile, sociale ed economica della comunità.
Subjects and areas of expertise	Sostenibilità organizzativa (Miglioramento e trasformazione in senso ecologico dei processi interni), Economia circolare, Gestione dei rifiuti e delle risorse (cibo, rifiuti, energia...), sensibilizzazione alle tematiche della sostenibilità integrata

Brief description of the experiences and expertises	L'azienda vanta una significativa esperienza nella creazione di percorsi formativi personalizzati e laboratori didattici su misura in collaborazione con enti pubblici e non, come in parte visionabile sul nostro sito (https://www.aquaponicdesign.it/tipologia/scuole-it/). Per citare una delle ultime esperienze, nell'ultimo anno siamo stati coinvolti come formatori presso i Salesiani CNOS-FAP, sede di San Lazzaro. Il percorso formativo si è articolato in lezioni teoriche e attività pratiche volte alla realizzazione di un impianto idroponico produttivo direttamente con dei ragazzi di età compresa tra i 15 e i 20 anni in media provenienti per lo più da esperienze di abbandono scolastico.
Info on supporting WISEs and SEEs	Siamo una startup innovativa e spin-off dell'Università di Bologna costituito da un gruppo di giovani appassionati alle tematiche ambientali che hanno unito le proprie competenze multidisciplinari (agronomi, entomologi, acquacoltori, ingegneri, designer, ecc..) per permettere a chiunque di sviluppare il proprio progetto grazie a consulenze personalizzate e corsi di formazioni ad hoc sui nostri settori di competenza: Acquaponica, Idroponica, Bioaponica, Biolaghi e biopiscine, Coltivazione di funghi, Biofilia, Valorizzazione della sostanza organica di scarto tramite processi di compostaggio e vermicompostaggio e sistemi di recupero dell'acqua piovana.
Subjects and areas of expertise	Economia circolare, Gestione dei rifiuti e delle risorse (cibo, rifiuti, energia...), Manutenzione del verde e giardinaggio, Sostenibilità nel settore agricolo e agroalimentare
Materials available	Registrazioni video delle lezioni/attività, Mini video riassuntivi, Materiale informativo, Materiali personalizzati
